HOLIDAY REQUEST POLICY

Changes to national government policy stipulate that head teachers are no longer permitted to approve any holidays during term time, unless there are exceptional circumstances (for example, a holiday with a close relative who has a terminal illness). To ensure that all applications are dealt with promptly and impartially Warnham School Governing Body decided that a panel of governors would consider any requests for holidays.

This policy is designed to explain the procedure. Parents / carers should submit a written application for holidays to the school as soon as possible, stating the child's name, period of absence requested and clearly setting out the reason why it is exceptional. A panel of governors will examine each application and their decision will be relayed, in writing, to the parents / carers within 5 school days of receipt of the application.

If a parent / carer wishes to appeal the decision of the governors' panel, they should submit any additional relevant information within 5 days to the Appeals Panel of governors not involved in the original decision. The Appeals Panel will review each case individually and their decision will be relayed within 5 school days.

The decision of the Appeals Panel is final. If holidays are taken without approval, they will be recorded as unauthorised absences and parents / carers could be liable to a fine.
